

# WISE TOPPER

**Eliminates Need for Removing Vise**

- **A new accessory for Bridgeport-type milling machines that fits right over the vise and provides a fast and effective clamping surface for flat work.**
- **Eliminates the need to disassemble and remove the vise. This fully adjustable table comes with posts that bolt directly onto the machine table.**
- **Features 10 mounting holes for the posts, five on each side that provide +/- 5" adjustability on the y-axis to allow easy setup for irregular parts.**

**Dimensions:** 1" x 12" x 19"
